

Happy Fall everyone!

As always, thanks for visiting our website! I hope you take some time to look around and learn a little about the SDSRT.

As you may know our webmaster is currently doing a lot of work rebuilding our site with hopes of all the improvements being live by Convention in April. If you have any comments/suggestions, please contact us and we will send them on. One of the most exciting projects he has is the creation of a "Member's only" section. Our hope is that this area will allow SDSRT members the ability to do online voting, access CE information, and also include some member perks.

For those of you who attended Convention in Deadwood, Carol Perrigo gave a talk entitled "Overcoming Lifes Obstacles"Words of hope with a funnybone. Many individuals had inquired into getting a copy of this speech; they are now available, so please click on the [Announcements](#) tab to access her contact information.

To all of our amazing students, the deadline for turning in your application for the SDSRT and ASRT mentorship programs is December 1st and is fast approaching. If you have any questions about what this opportunity can mean to you, feel free to contact our current SDSRT mentor Hannah Cotton at hcotton09@gmail.com.

I wanted to let everyone know that a Legislative Committee has been formed to look into the possibility of state licensure. As you know, South Dakota is one of only a handful of states that does not require a license to perform Radiographic procedures. We will keep you informed as developments occur.

Lastly, don't forget that National Radiologic Technology Week is November 3-9. Commemorate the anniversary of the x-ray's discovery by Wilhelm Conrad Roentgen on Nov. 8, 1895 and show your pride in our profession. Feel free to share pictures of your celebrations on our Facebook page; I know everyone would enjoy seeing how different facilities celebrate.

Until next time!

Andrea Kindvall RT(R)(CT)CBDT

SDSRT President
