Reason for Being involved in the SDSRT:

Having the opportunity to be involved in the SDSRT would allow me to become a better technologist. This would positively influence me in the way that I could have a chance to hear how other technologists are practicing and using those ideas to better myself as a technologist. Also, it would be a way for me to hear the concerns and needed changes among many technologists across the state. Instead of fighting alone, we will all fight together as one to make progress for a needed change.

Before signing this application, you should have your employer's endorsement to devote the necessary time to perform the duties assigned to you by the Board of Directors.
