SDSRT: 2016 Student Intern

Committee Appointments:

ASRT: N/A

SDSRT: N/A

Technical Paper and/or exhibit or other awards:

While I attended the ASRT conference in Las Vegas, Nevada, I received a participation award for my involvement at the conference. Later, I was notified to give a speech to the incoming 2017 student interns at the Educational Symposium in Orlando, Florida the following year. I also assisted at the House of Delegates Meeting as a member of the Sergeant at Arms.

Reason for Being involved in the SDSRT:

After my attendance at the state and national conferences, I became aware of all the opportunities available to technologists that are active in their affiliates. Not only did I make strong connections with some of the people that I have met along the way, but I have also been able to have more insight to the inner workings of both the national and state levels in this organization. I hope to continue working with my state and national affiliates to improve our profession.
